

Week 4 – Parents Guide

Last week in our poetry competition we looked at what social isolation has meant for them, now this week we are redirecting the focus from reflection to projection by asking them to think about the thing they are most looking forward to when this time has passed. We are asking for posters to illustrate this and as usual if you are happy for them to be shared then please see the instructions below.

Our family challenge is a speed finger spell contest in which you can compete against yourself to improve your score or set up a family leader board and compete as a family. Either way this is purely for fun!

We hope you enjoy this week- don't forget to share your posters with us and look out for next week's challenge!
