

Week 9 – Creating a time capsule

Parents' Guide

In order to celebrate and remember this time you have all spent together why don't you create a time capsule. You could get the whole family involved. Each person could choose something to put into the time capsule and over dinner you could each share what you have chosen and why.

You could choose anything to put into your time capsule- it could be a photo, a picture your child drew, something they made, a recipe you enjoyed, newspaper cuttings etc

If you don't have a container then you could create a scrapbook and then your child can decorate it.

I have chosen to put in the
time capsule because
